

Air Tightness Testing

Miller

Pattison

The Complete Service

A TRULY NATIONAL SERVICE

As you are aware Air Tightness Testing is a high priority within the building industry. Miller Pattison's priority is to offer you the very best service.

Over the last 40 years Miller Pattison Limited has become the first choice for many Construction Companies, House Builders and Utilities Boards where a high quality service and the ability to deliver under challenging timescales is demanded.

Miller Pattison's Air Tightness Testing Division gives you the 'Complete Service'. We offer the knowledge, resource and expertise of a truly nationwide company but with the response and high level of customer service you would expect from a local business. Our national team of highly skilled and motivated professionals are equipped with the technical 'Know-How' to ensure compliance with Part L1A Building Regulations 2006 and the requirements of BINDT and ATTMA. All our technicians are BINDT registered to give you complete assurance of their competence.

Miller Pattison is also able to provide smoke testing and remedial testing if required.

The benefits of using Miller Pattison's Air Tightness Testing Service.
